

**AVAILABLE FOR TRIAL
FROM OUR PARTNERS**

"Once you've tried Dreeft wheels, there's no turning back! It's the system we've all been waiting to improve our daily lives. Our shoulders, arms and hands are finally protected."

Oksana G.
Dreeft user since 2022

EPPUR

-DREEFT

DO YOU WANT TO BRAKE FREE ?

MADE IN FRANCE

EPPUR, a simplified joint stock company with share capital of €28,901, registered with the Lille Métropole Trade and Companies Register under number B 881 789 408.

SLOW DOWN

The 1st braking system for manual wheelchairs :

A PAIR OF WHEELS TO BRAKE WITHOUT INJURY

FROM :
2000 € TTC*

Zero friction

No more gloves
and callus on
your hands!

-80% braking effort

Compared to
a normal wheel
(your shoulders will thank you)

Without gripping constraints

Allows you to brake
without having to grip
the handrail

GO FURTHER

Combine DREEFT with your electric motor :

CONTROL AND BRAKE WITH YOUR FINGERTIPS

Coupled with an electric propulsion system, DREEFT lets you steer your wheelchair **effortlessly**, using your fingertips or the palm of your hand.

The motor pushes the wheelchair and DREEFT lets you steer or stop by lightly pulling on the handrails, for **greater control and safety**.

*Prix indicatif pour une paire de roues, ses axes et ses adaptateurs de fixation.

*See details and options on the measurement sheet.
